The West Virginia Library Section invites you to participate in **West Virginia Family Read Week 2024!** Happening **November 10-17**, this annual event encourages families to read with their children. This year's theme is **Bringing West Virginia Families Together**, and we hope to emphasize the importance of connecting families through reading together, generational storytelling, and personal family traditions.

We have designed a poster, Family Guide, and Library Guide, all of which you can post on social media and print at your libraries to hand out to your patrons. You can view and download the materials from our website at www.librarycommission.wv.gov. During the week, we invite you to present special programming that focuses on family bonding.

If you share your upcoming Family Read Week events on social media, please send us the link, and we will post it on our Library Section Facebook Page. If you wish to obtain more resources, have any questions, or have a suggestion for next year's event, please contact us at wvlcref@wv.gov or call us at 304-558-2045.

Sincerely,

West Virginia Library Section
